

Transitional Living

Bridging the gap for the way you want to live

Transitional Living is ideal for older adults who may need some help with day-to-day tasks, but who don't need the more intensive care found in skilled nursing. Once they've given to us the burdens of cooking, cleaning, maintenance and care, residents may be surprised to discover how much their overall quality of life improves.

At Sterling Presbyterian Manor, we believe that everyone deserves to live the way they want to live. Our community is a place where residents can be active, engaged and devoted to friends, family and the things they love every day. Our friendly, skilled staff will provide a variety of additional services upon request. As needs change, residents will have priority access to our 5-star rated health care center.

A homelike experience

Comfortable private and semi-private suites are designed to make residents feel at home, while providing 24-hour access to support services. Each suite is equipped with a mini-fridge and a flat screen television. Residents are encouraged to furnish their residences with their favorite personal belongings.

Living well is a priority at Sterling Presbyterian Manor. Residents enjoy a wide range of amenities only steps from their door, including a dining room, hair salon, spiritual services and more.
